

# CONFORMABLE NATURAL GAS TANK

EFFICIENT PACKAGING • INCREASED RANGE • REDUCED COST

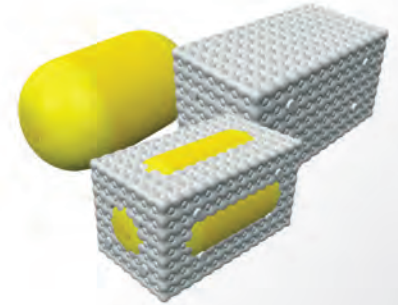

### TODAY

CNG cylinder consumes cargo space

### REL SOLUTION

Matrix CNG tank is packaged efficiently under the truck

Replace a cylinder and increase capacity by 20-35%

SWN invested \$2.1 million with Michigan Technological University and REL to design a conformable tank for pick-up trucks.

## INVESTMENT OPPORTUNITY

REL is seeking financial and commercial partners to bring resources and investment for future product development, manufacturing scale-up, sales, marketing and distribution.

### REL Profile:

REL is a vertically integrated technology development company. REL has a growing portfolio of product and process technologies that deliver significant efficiency, cost savings and weight reduction.

### Investor Contact:
